Introducing **S.A.M.** - Shredding with **A**ccountability and **M**onitoring
Our new secure destruction service

Introducing S.A.M. Shredding with Accountability and Monitoring

If you're concerned about protecting your company's assets and avoiding breaches of confidentiality, you need to be confident that sensitive materials are disposed of efficiently and in compliance with the law.

Plus with changes in legislation due in early 2018 confidential destruction will be required in all businesses. We can provide further details of your liability under the planned changes in the law and offer a comprehensive service which totally protects you.

Our new S.A.M. (shredding with accountability and monitoring) service includes collection, transport, storage and destruction of sensitive/confidential material. The process is totally secure, reliable and cost-effective and we provide full certification on completion of the process.

Peace of mind

Whether you're looking to dispose of prototypes, plans, data, paper documents or other sensitive material, you can rely on LKM. As a leading provider of destruction management solutions, we have over 30 years of experience in the industry. Our professional staff are trained and security vetted, and we provide a full audit trail. We use highly advanced industrial shredding equipment to dispose of confidential materials and the process is securely monitored throughout for your peace of mind.
