

## London & Kent Recycling

### Environmental Policy Statement

London & Kent Recycling is an environmentally conscious organisation and as such we acknowledge the potential environmental impact that our company and related operations may have on the environment

This policy has been endorsed by the directors who give full support to its implementation. The directors are responsible for ensuring that it is communicated, understood, implemented and maintained at all levels within the organisation.

We are committed to the prevention of pollution and continual improvement of our environmental performance. This will be facilitated through the setting of environmental objectives based on our significant environmental aspects. These objectives will be documented allocated targets and periodically monitored and reviewed through inspections. The results of these will be communicated throughout the organisation and to our clients, suppliers and contractors as appropriate.

As an organisation, we are committed to ensuring that we:-

- Comply with all environmental legislation, using codes of practice and guidance produced by regulatory bodies to assist where appropriate
- Provide all employees with the necessary resources, equipment, information, instruction and training to fulfil the requirements of this policy, commensurate with their role
- Work towards a formal environmental management system based on legal requirements and in accordance with other health and safety and quality procedures
- Strive to integrate environmental best practice into our business operations
- Prevent pollution to the environment by ensuring that we manage the disposal of waste electronic and electrical equipment and batteries
- Minimise waste to landfill by reducing our waste generation and by segregating and recycling waste where economically and operationally feasible
- Co-ordinate business mileage so as to maximise fuel efficiency and reduce emissions
- Use energy, water, materials and other natural resources as efficiently as possible, giving particular regard to the long term sustainability of consumable items
- Ensure that the environment is considered in the procurement of goods and services
- Give appropriate consideration for the environment in the goods and services we provide to customers

This policy will be communicated to all employees. Employees are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others, or the environment.

This policy will be periodically reviewed by the Directors and where deemed necessary will be amended and re-issued. This policy statement is displayed in the main office and in the staff handbook and is publicly available as may be reasonably requested by any interested party.
